

**Policy for Special Educational Needs and Disabilities (SEND)**

**Rationale:**

The school's SEND Policy is based on the SEND Code of Practice 0 – 25 years 2014 which gives statutory guidance; relating to The Children and Families Act 2014, The Equalities Act 2010 and The SEN & Disability Regulations 2014.

All children and young people are entitled to an education that enables them to make progress so that they achieve their best, become confident individuals living fulfilling lives, and make a successful transition into adulthood, whether into employment, further or higher education or training. (6.1 final draft CoP)

**Principles:**

A child is defined as having Special Educational Needs (SEN) if they have a learning difficulty, which calls for special educational provision to be made, or if he or she finds it much harder to learn than children of the same age.

A learning difficulty means that the child either:

- a) Has significantly greater difficulty in learning than the majority of children of the same age
- b) Has a disability, which either prevents or hinders the child from making use of the educational facilities which are provided for children of the same age in a mainstream school

Special educational provision means educational provision, which is additional to, or different from, the provision made generally for children of the same age in a mainstream school. (xiii, xiv CoP 2014)

Evidence suggests that approximately 75% of disabled children also have a special educational need and the Equalities Act 2010 also protects these pupils. Mainstream educational settings must use their best endeavours to secure the special educational provision called for by the child's or young person's needs.

Training will be offered as CPD; as a result of performance management or an area reflected in the SDP.          Liaise with SENCO regarding access arrangements for statutory assessments.</p>	<p>Meet with parents.          Plan a time limited intervention or different strategy.          Review with parents.          Discuss with SENCO/HT and consider putting the child on the SEND register or a cause for concern list.          Inform parents that their child needs <b>SEN support.</b>          Record the provision on an Individual Provision Map (IPM).          The SEN provision will be reviewed with the parents every term and for some children more frequently and a multi-agencies review carried out in the summer term.          SENCO /HT will offer advice on differentiation, strategies and appropriate interventions.          Ensure, with the support of the SENCO, that appropriate access arrangements are made for statutory assessments.</p>	<p>TA timetables</p>
<ul style="list-style-type: none"> <li>• Early and accurate identification is essential</li> <li>• There will be a flexible continuum of provision for pupils with SEND.</li> <li>• SEND and high needs funding will be used efficiently to ensure good progress of pupils with additional needs.</li> </ul>	<p>Termly teacher assessments that are accurate, consistent and moderated across the school and cluster. A graduated response that centres round the child and engages with parents should be used: Assess – Plan – Do – Review.          Additional interventions will be implemented as necessary and be monitored and evaluated.          Additional help may be sought from outside agencies.          Transition arrangements will be personalised to support additional need.          Good access arrangements are made so that all pupils can demonstrate their full potential in tests.  <b>Role of the SENCO is a strategic one working with the senior leadership to</b></p>	<p>Some children need 'additional or different' support from their peers; this is recognized as <b>SEN support.</b> It is crucial that the primary SEN is identified, under four broad areas of need: <b>Communication &amp; Interaction; Cognition &amp; Learning; Social, Emotional &amp; Mental Health; Sensory &amp; or Physical.</b>          The LA have developed a Comprehensive Assessment of Need tool (<b>CAN-DO</b>) which looks at areas of strength of the child to build on and areas of need that require intervention.          School has a range of interventions to support the needs of most children.          An intervention would be recorded on an IPM.</p>	<p>Discussions with child and parents          Review level of participation by vulnerable groups. **review and refresh the SEN policy and then with the classroom/subject teacher to review it; practice ensure every child with SEN get; the personalised support that they need. The role involves;**

- **overseeing day-to-day operation of school's SEN policy;**
- **coordinating provision for children with SEN;**
- **liaising with designated teacher where a Looked after Child has SEN;**
- **advising on graduated approach to SEN support including differentiation;**
- **advising on use of delegated budget/ other resources;**
- **liaising with parents of children with SEN;**
- **linking with other education settings and outside agencies;**
- **ensuring all staff have appropriate access to up to date information about pupils with additional needs (both SEND pupils and vulnerable);**
- **liaising with potential next providers of education;**
- **working with head and governors on Equality Act; and**
- **ensuring that SEN records are up to date.**

**Role of the Headteacher:  
Should take overall responsibility for the provision and progress of learners with SEND and implement the SEND policy in line with the new Code of Practice 0-25 for use from September 2014**

Some children may have an Inclusion Passport, which is a summary of the type of support given; a child's strengths and needs; strategies that help or do not help. The Inclusion passport will follow a child as they move to a new school and aid transition.

Sometimes it is helpful for school to request additional specialist advice and support from an outside agency. The following professionals are available:

Educational Psychologist (EP), Enhanced Mainstream School (EMS) for Specific learning difficulties (SpLD), EMS for Communication & Interaction (C&I), EMS for Social & Emotional difficulties, Speech & Language therapist (SALT), Occupational Therapist (OT), Physiotherapist, Autistic Spectrum Condition Outreach Support Services (ASCOS), Sensory, Physical & Medical team, Educational Social Worker (ESW), Parent Support Advisor (PSA)

Parents will always be consulted and involved in the provision, which will provide the best outcomes for their child.

The LA has gathered together a '**Local Offer**' which gives parents access to information on education, health, care, local groups and charities that support children & families that have a child with SEND. For a very small number of children who have severe or complex needs a request for an Education, Health & Care Plan (**EHCP**) may be made if parents and professionals supporting a child feel that the child's needs cannot be met with the resources normally available to a mainstream school. The CAN-DO form should be

SEN budget – Element 2, notional SEN funding and Element 3 'top up' funding for a child with an EHCP.

- Governors should have access to information, which will allow them to monitor and evaluate the effectiveness of the SEND policy.

- **Must have regard to the SEND Code of Practice 0 – 25 and should oversee the implementation of the reform and provide strategic support to the head teacher**
- **Must publish information on the school's website about the implementation of the SEND Policy. Also publish the schools' SEN Information report and link it to NY 'Local Offer'.**
- **Must ensure that there is a qualified teacher designated as SENCO.**
- **Must ensure that arrangements are in place in school to support pupils at school with medical conditions.**
